Charter of Leadership at Catholic Ladies' College

Our mission at Catholic Ladies' College is to educate in partnership with parents, women of faith, integrity, individuality and compassion, confident of their own worth as women and wholly involved in the transformation of society. This endeavour is only possible within a Christ centered community.

As leaders within the community we commit to providing technical, human, educational, symbolic and cultural leadership, which is student centered and which facilitates the development of each student's potential within an environment of trust, excellence and best practice.

We commit to working within a Leadership Group that places value on relationships, loyalty and integrity. We believe our moral purpose is to model for students and teachers, respectful, professional and empowering relationships that are challenging and affirming.

We recognize the commitment and innovation by those who have gone before us at Catholic Ladies' College and commit to building on their rich history as educators. The College enjoys a reputation in the sector for innovation in learning and expertise in girls' education. We will continue to enhance the culture of Catholic Ladies' College to ensure it is a vibrant and inspiring learning community for all.

Professionally we will work together to expand the College as a place of learning excellence through setting clear directions, developing team capacities and maintaining commitment and well being of staff.

We will create systems and facilitate opportunities, which integrate and develop staff skills and foster professionalism. Staff are the most important resource in delivering quality learning and we will value and support them in a co-operative team based environment.

In striving to be an outward looking and progressive community we will maintain expert knowledge of curriculum, pastoral care, management and learning innovations and practices. We will also build authentic partnerships with parents and the community recognizing that learning takes place in a social context.

A commitment to ongoing learning will be at the heart of all we do as we strive to be an exemplar of a contemporary Catholic learning community.

This Charter was developed through the Conversations on Leadership – Series of Workshops, held at Catholic Ladies' College 2004
